

The Miracle of You

You are a masterpiece. More perfect and precious than any work of art created by all the artists in the World.

You are unique. Not to be repeated. A "limited edition" of one. In the history of the World there has never been, and will never be anyone exactly like you. That's your GOLD. Your individuality.

But that gold has been buried. It's lustre smothered. It's shining promise obscured.

And the worst part is this "cover up" has been facilitated by those you know, and for the most part, trust.

Your parents. Your schools. Your church. Your government. In essence, all the elements of "Society."

From the time you could say "ka-ka" society has been painting IT's colors on the canvas of your life. Smothering yours. With it's "rainbow" of Belief, Ego and Desire.

You had no clue this was happening. And why would you considering your faith in the messengers?

More to the point -and more chillingly - you regard this programming as your idea. The "way" things are/should be.

Why would you even consider there could be another "way?" (Welcome to the Matrix.)

To further it's goals, Society has infected you with three highly contagious(and complimentary) viruses. Belief. Ego. And Desire. (Because you weren't born with them.) And, as you have no doubt experienced all they are are "joined at the hip."

It's the "B.E.D. Gang " that spread the lies, half-truths, omissions, maybes, could be's, projections, predictions, fear, fright, fantasies, fairytales, threats,nightmares, confusions and distractions that keep you doing the "right things" in the "right way."

Ensuring that your individuality - much less your Authentic Awareness - is not even a distant memory.

So -what's the solution? Yes - I know what you're thinking: "If we could 'take out' the B.E.D. gang then there would be a chance to scrape off the programmer's faux colors."

Agreed. But the rock and the hard place here is that you're not facing an EXTERNAL enemy.

Unlike Frodo being tempted by the ring - you ARE the ring. *You are Belief, Ego and Desire.*

So how do you make a "surgical strike" on yourself?

Happily, there is a way to recover the Authentic you. One that is easy to understand and free.

When you truly understand how and why you are being manipulated/controlled, the manipulators power vaporizes. Gone. Sayonara. Ciao baby.

That - is my mission here. To Explain *Factually*, without fantasies, fairytales, wishes, prayers, hopes, theories, hypothesis, projections, affirmations, inspirational quotes, NLP or "vision boards" - WHY and HOW you're being manipulated.

Peeling back the programmer's paint to recover your masterpiece will require unimaginable perserverance, a mind open to what it doesn't "know", and an unquestionable acceptance of facts.

Facts never lie. Never "misspeak." Never "Spin." Facts can't be bribed,corrupted,cajoled, persuaded, or influenced.

Facts tell the Truth. Facts confirm that someone/something is: "True."

Facts don't give a rats ass for your precious "beliefs." They'll flat out tell you how things are. Not how you want them to be.

Facts dynamite dreams. Flame fantasies. Feast on ideals,principles and standards.

Facts are cold blooded,ruthless,heartless party poopers with no savoir faire,dignity or respect.

Facts take no prisoners.

So,if you're looking for a touchy-feely motivational tome to stroke your world view, values and beliefs, this book is sooooo not for you.

But if you're ready to be soaked by the coldest reality shower you've ever experienced, just turn the page.

What I'm about to share is diametrically opposed to conventional "wisdom." Like all undeniable facts that don't massage the status quo,it will undoubtedly be labelled "controversial."

I'm good with that. Because "controversy" implies "doubt." And doubt means that people are talking. And maybe even *thinking*.

"A clash of doctrines is not a disaster - it is an opportunity."
